IEEE CIRCUITS AND SYSTEMS SOCIETY

Certification of Your Paper Selected as TCAS-1 Highlight

June 17, 2020

Dear Authors:

I am the Editor-in-Chief of IEEE Transactions on Circuits and Systems I (TCAS-I). This letter is to certify that your paper entitled "Polar Compiler: Auto-Generator of Hardware Architectures for Polar Encoders" has been selected as our Highlight paper of June Issue. TCAS-I considers it to be an intriguing topic with high quality. Congratulations to the authors on your rewarding work.

TCAS-I is an international journal, published monthly, with a circulation of over 11,000 copies. Its field of interest covers the area of pertinence of the Circuits and Systems Society (CAS), namely the theory, analysis, (computer aided) design, and practical implementation of circuits, and the application of circuit theoretic techniques to systems and to signal processing. Consequently, the specific technical content of submitted papers is expected to have a clear connection to the general theme of Circuits and Systems. Furthermore, papers submitted in the circuits area need to demonstrate a performance advantage over prior work (those accompanied by measured results are particularly encouraged), or to substantiate meaningful impact in practical existing applications or in emerging systems that are quickly gaining momentum. TCAS-I is a preeminent publication concerning circuits and systems with an Impact Factor of 3.32.

We really appreciate your work and look forward to more collaboration in future.

Yours faithfully,

Professor Weisheng Zhao
Editor-in-Chief
IEEE Transactions on Circuits and Systems I: Regular Papers

Prof. Weisheng Zhao, IEEE Fellow
Dean, School of Integrated Circuit Science and Engineering
